Van—	Caramel .....	.25	.20
Yvonne—	Blush white .....	.05	.03

No Order Accepted for less than \$1.00.

Each Item Must Amount to Not Less than TEN cents.

# Mildred Louise

This Gladiolus was brought to the attention of the glad fans by its originator, the late M. W. Wentworth, of Battle Creek, Michigan, in the fall of 1931, being exhibited that year at the Metropolitan Gladiolus Show in New York, the Atlantic City Flower and Garden Pageant at Atlantic City, the Michigan State Gladiolus Show, and other flower and garden shows.

This beautiful gladiolus was not only the outstanding introduction of that year by gladiolus growers, but also by the general public and glad fans.

The prevailing color of this super gladiolus, MILDRED LOUISE, is strawberry pink fading to a soft yellow in the throat. The flower seems to give off a soft glow when cut and taken indoors.

The stem is strong and flexible, though not at all club-like or heavy. The beautiful, triangular shaped florets open wide, and measure five and one-half inches or more across without distortion; there are eighteen to twenty-two buds on each spike. Florets lie close to the stem, though there is no crowding, nor open spaces between florets. The petals are firm and of good substance, thus making a bloom of unusual value as a cut flower. The foliage is of a deep, blue-green color; the spikes are uniformly straight; the stems rarely branch; it is an excellent propagator.

MILDRED LOUISE is an EXHIBITION gladiolus that is at the same time an extremely good SHIPPER, making it especially fine as a COMMERCIAL FLOWER.

Another very good feature of this gladiolus is that it BLOOMS ON THE AVERAGE OF 76 DAYS, while most all the other leading gladiolus are handicapped by being 10 to 20 days later.

Being originators of this prize winner, we have plenty of good healthy bulbs to fill your orders to your entire satisfaction.

We Originated

# MILDRED LOUISE

The sensational PRIZE WINNER since its introduction in 1931.

MILDRED LOUISE first bloomed in our fields TEN years ago, but we did not put it on the market until we were sure that it was all that a gladiolus could be.

If you saw MILDRED LOUISE at A CENTURY OF PROGRESS, COMBINED NATIONAL INDIANA and MICHIGAN GLADIOLUS SHOW or any of the other GLADIOLUS SHOWS in the United States or Canada, you will know that it is all that 'we say it is; and WE are sure that you will want to order MILDRED LOUISE for your garden.
